- Can access important notices on Virtual Notice Board like last date of payment of fees etc
- Can indicate their grievances directly to the management

The Sterope has following sections.

Student/Parents

Teachers/Class teachers

Admin/Principal/Data Entry

## Benefits For Students

Students get a new platform not only to gain but also to express the knowledge base inside them. The simplified and effective way to of joint efforts of learning will give them a great ground to run in up to the limits of their will power. Tools like articles and online exams do provide them a new deal of learning and perfection.

## Benefits For Teachers

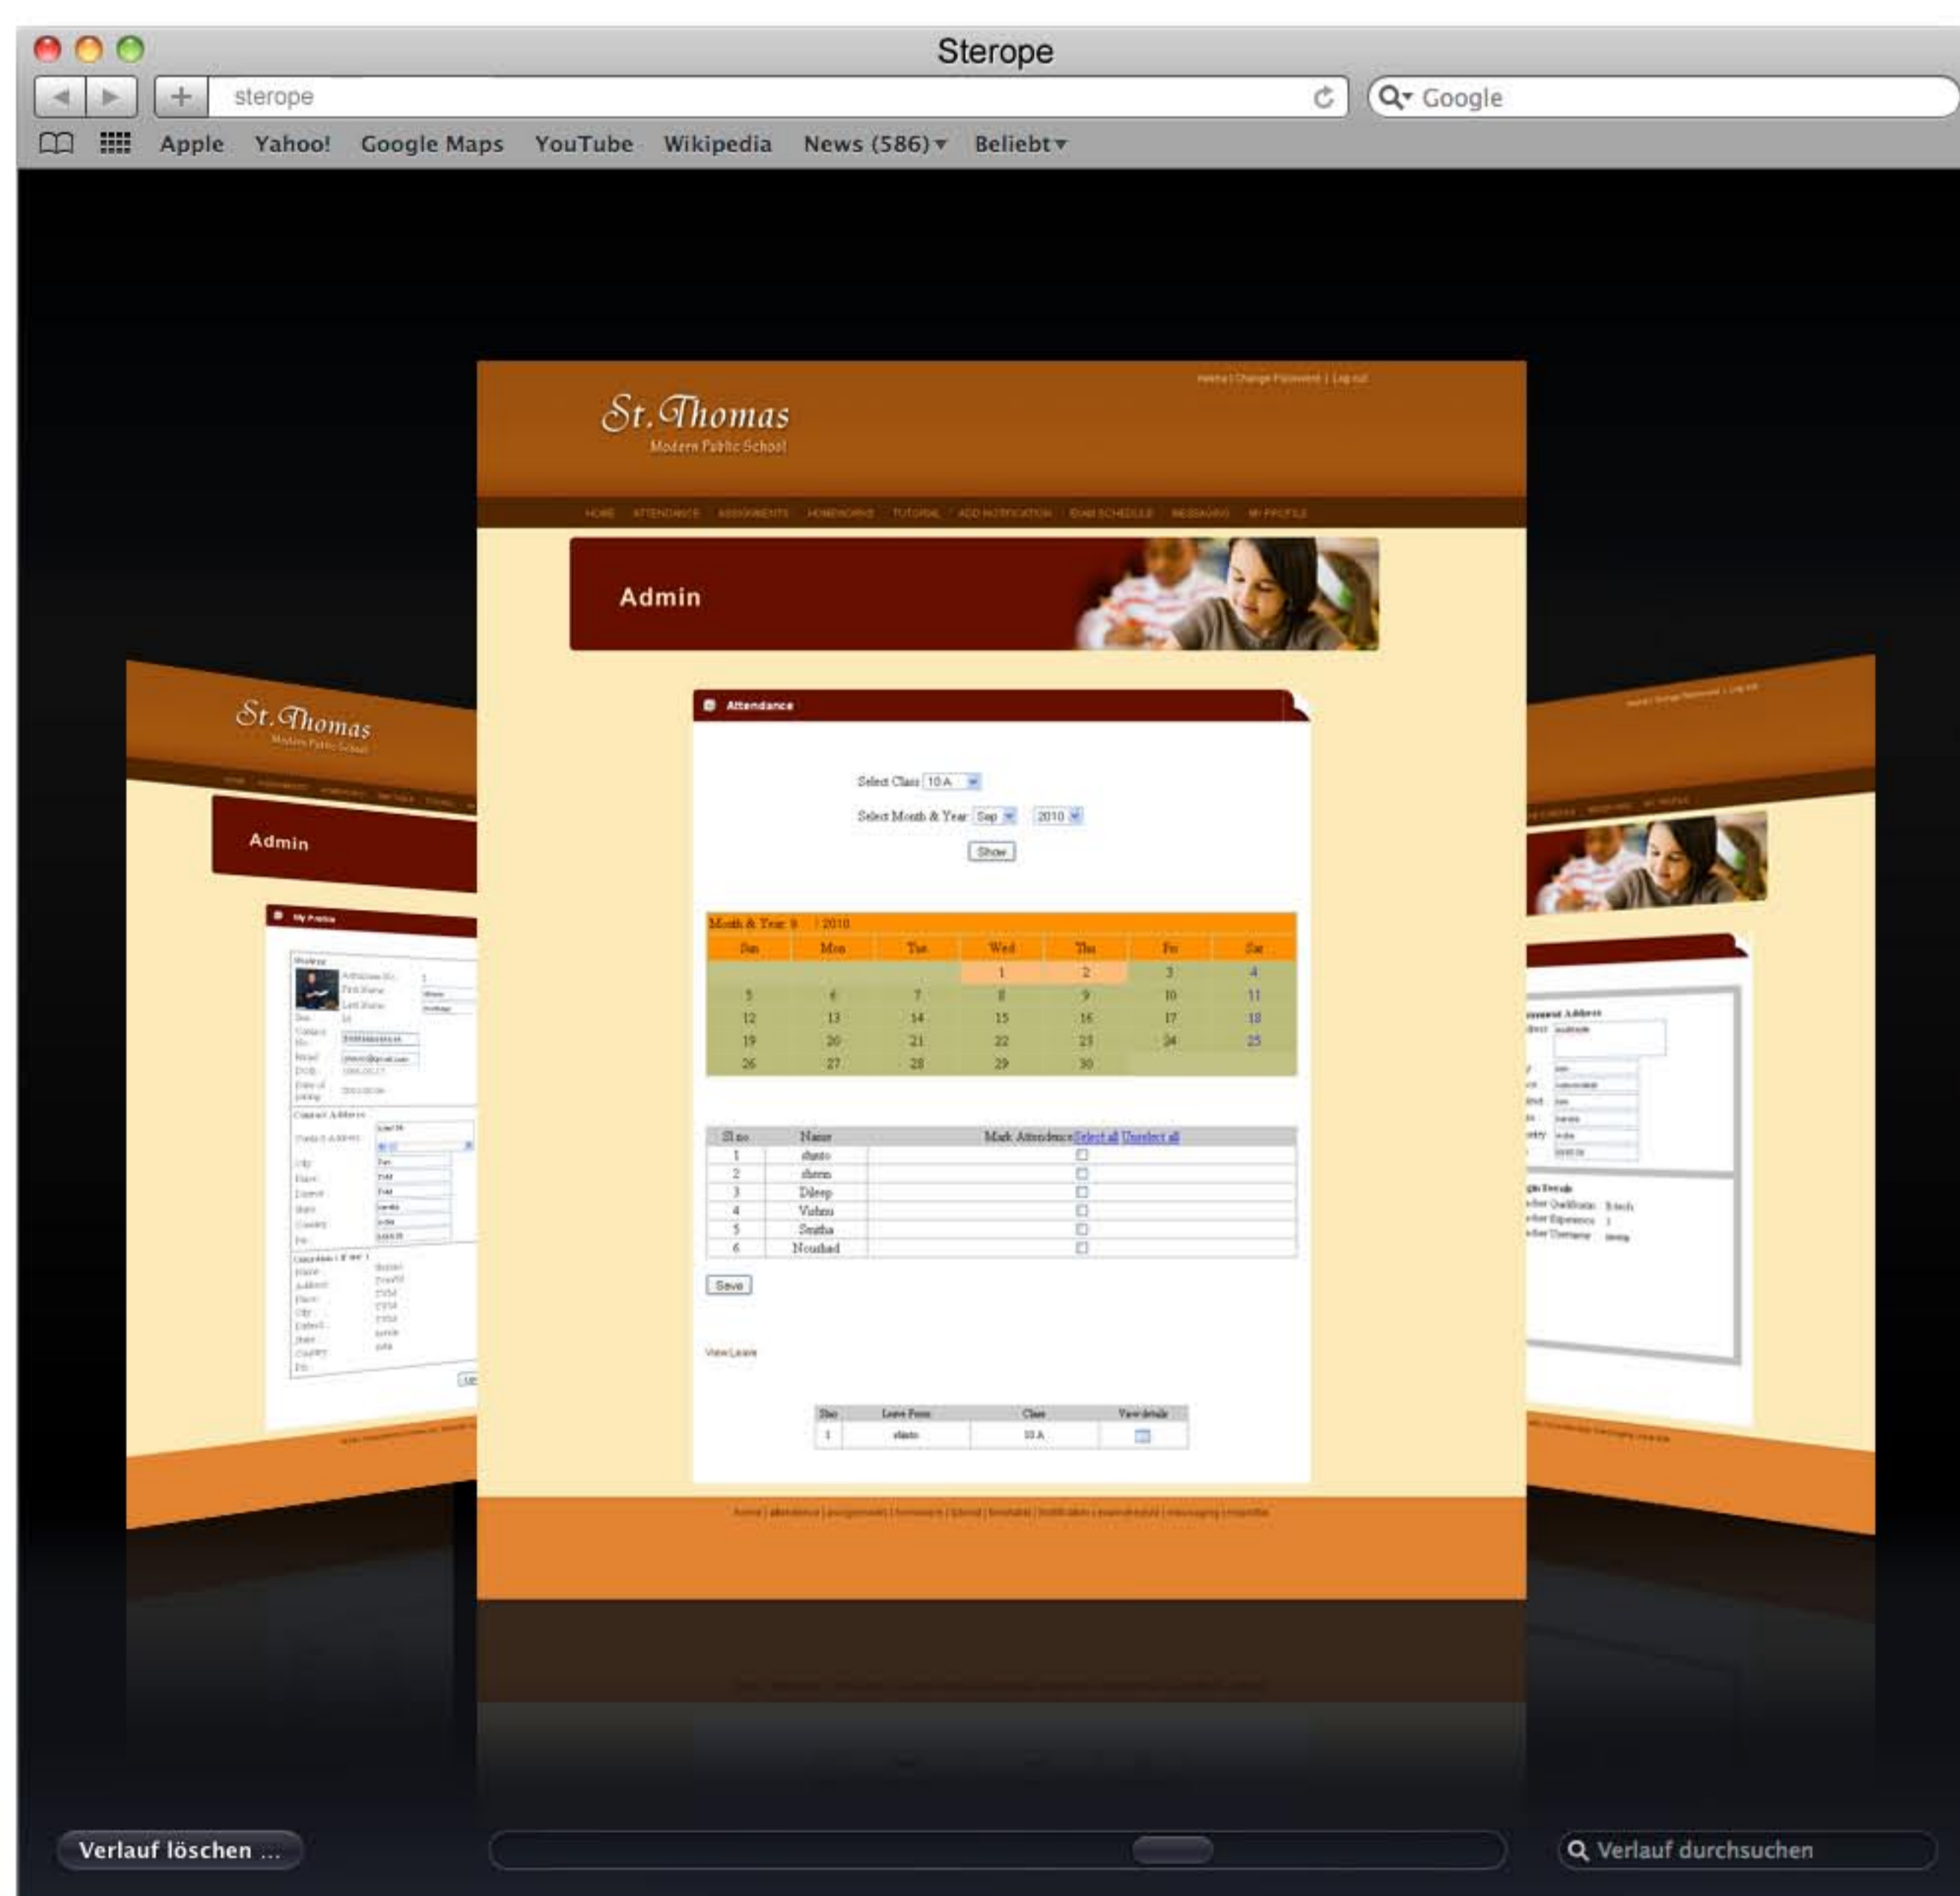

Realizing that a student teacher relationship is the most important relationship in education, Sterope tries to give them a new media of interaction. This new media leaves behind the limitation of time management and set curriculum. Irrespective of the course curriculum teachers have Sterope to share there best with their students using articles, online exams and forums.

## Benefits For Parents

In today's busy scene where often both the parents are either working or living far away from the institution, personal visits to the institution is really not an easy task. The reporting system in Sterope enables them to have a closer look to their wards performance and will provide a fact based approach to their wards life. And all this from their home or offices.

## Benefits For Administrator

School management has a systematic and easy approach towards maintaining and updating the different aspects of the website. All the management aspects of the institution like the admission process, message broadcasting, notice board publishing are taken into account which not only saves resources but also provides efficiency in working.
